

FINKlet[®]/FINKPlate[®]

Cathodic Protection Test Station

The **FINKlet**[®] and **FINKPlate**[®] cathodic protection test stations are rugged, maintenance free, non conductive terminals for monitoring electrical currents and potentials. Utilized worldwide by oil, gas, chemical and water pipeline companies, **FINKlet**[®] replaces Condulet[®] style outlet bodies. **FINKPlate**[®] retrofits any E-27 or E-37 body. **FINKlet**[®] and **FINKPlate**[®] are available from all Cott distributors and are produced in Cott's factories at Pittsburgh and Los Angeles.

Features:

CP Test Station

FINKlet[®] and **FINKPlate**[®] made from Makrolon[®] polycarbonate. One of the toughest plastics in the world. Has fifty times the impact resistance of bakelite.

Support Post

COTTPipe[®] PE (standard) polyethylene blend has over 20 years of proven durability. **COTTPipe**[®] PC (optional) polycarbonate is available for the toughest applications. Standard length 6 feet - available to 40 feet.

Colors

Red, Orange, Yellow, Green, Blue, White and Black are standard on **FINKlet**[®] **FINKPlate**[®] and **COTTPipe**[®]. Any color is available as an option.

Hardware

Standard nickel plated brass or optional stainless steel for guaranteed long service life. Up to 4 terminals accessible from both sides of the board. **ZAP Gard**[®] (Banana Jacks) conforms to Nace RP-01-77.

Accessories

All **FINKPlate**[®] terminal boards can accommodate **COTTShunts**[®], Burndy connectors, Cott bonding/shorting straps, Banana Jacks, and lightning arrestors.

Sizes

Available in models to fit 3/4" and 1" pipe and E27 or E37 Condulet[®] bodies.
