E204 - E224 Straight Silicone Rubber Electrodes
Available in 100mm (4") to 600mm (24") widths.
Used to test large flat areas that are easily scratched. Note: Maximum length recommended for use with AC equipment is 150mm.

The Straight Silicone Rubber Electrodes are normally supplied with a 90° backing strip, for fitting into the Shoe Attachment (A12). They can also be supplied with a 45° backing strip to enable the electrode to be connected directly to an extension rod, or with the Adaptor (A4), straight onto the test probe handle. To order this fitting: add an A to the end of the code number i.e. E204 = 100mm (90°), E204A = 100mm (45°)
E408 - E440 Curved Silicone Rubber Electrodes
Available for pipe sizes from 200mm (8") to 1000mm (40") diameter
For testing the outside of pipes, each curved section just over 90°.

E601 - E612 Circular Silicone Rubber Electrodes
Suitable for pipe sizes from 25mm (1") to 300mm (12") diameter
For testing coatings on the inside of pipes

E661 - E663 Round Silicone Rubber Electrode (with hole)
For pipe sizes from 25mm (1") to 75mm (3") diameter
Used to test coatings on the outside of small pipes

SPECIAL ELECTRODES CAN SOMETIMES BE MADE TO CUSTOMERS OWN SPECIFICATIONS
