

# IonX Portable Electrodes

- Zero leakage of half-cell filling solution (copper sulfate or KCl solutions)
- Zero contamination of half-cell by electrolyte (soil) elements, such as chloride ions - electrodes can be used in any soil electrolyte
- No need to re-calibrate electrodes - only need to fill the electrode tube periodically with regular tap water
- Electrodes have same dimensions, fittings and CPT ceramic tips as standard M. C. Miller RE-5 or RE-5C portable electrodes
