

# IonX Submersible Electrodes

(Designed for Immersion in Liquid Electrolytes)

Catalog #14640 - integrates with an MCM submersible adapter (MCM submersible adapters of various lengths are available, priced separately\*\*)

Catalog #14645 - has an integral sealed wire (length & gauge of wire to be specified by customer (wire priced separately\*\*))

\*\* please visit [www.mcmiller.com](http://www.mcmiller.com) for details

- Zero leakage from electrode
- Zero contamination of electrode by electrolyte
- Half-cell potential is independent of electrolyte salinity (seawater, brackish water, fresh water, etc.)
- No need to adjust readings to the copper sulfate scale
- Catalog #14640 integrates with M.C.Miller's submersible adapter and catalog #14645 has an integral sealed wire for direct submersion
